

Three60 Summit is a young and innovative software startup based in Munich. We are focusing on creating mobile and AR-apps of the future. Therefore, we are looking for the best and most talented people to support our business!

Our mission is, to build apps people love! We will transform ways people interact with many of today's apps. Therefore, we will bring different app concepts to new platforms and user interfaces.

If it sounds interesting to you, to explore new and novel platforms and dig into totally novel app concepts, then please drop us an email including a CV to:

jobs@three60.digital

Working student (m/f)

Web & App Developer

Munich & Remote | approx. 20 h/week

Profile:

- Experienced in HTML, CSS, JavaScript
- Experienced in PHP and MySQL
- Optional: Coding skills in Swift (iOS)
- Independent, structured, and result-driven way of working
- Born for coding and for building amazing products

Tasks:

- Build apps for a totally new platform (guided by an experienced coder)
- Connect apps of the new platform with an iOS app
- Optional: Help with improving our backend
- Optional: Help with connecting our backend to external APIs

Get the chance to be amongst first app developers for a totally novel platform. Work in a relaxed atmosphere. Get a real experienced coding mentor who guides you. Of course, we will offer you a good salary (> 15 € / h).
